PICTURES

The graphics are hosted either at my server or at Farouks, please if you open those links, you can save the pictures to your PC and after that upload them to your hosting package of AIOP. When done, replace the marked code with the entire link to your uploaded picture.

Changes to be made:

YOUR GRAVATAR + Name change this link to your saved picture SIZE max 150x150 pixel – the full path including <http://yoursite.example/yourpicture.jpg> , CHANGE your name and firstname just replace mine with yours!

YOUR center link if you want people who are scared by auto responder forms give the option to go around it, change the link either you put your AIOP affiliate link into it or the link to your rotator, where you put the affiliate link of each of your downline members. If you don't want this option, simply delete the entire marked part of the code.

Your campaign ID and return url

https://aiop-response.com/login/prospects_htmlform.php you find it at this page at the TOP. If you have more than 1 campaign created, make sure that the one for your AIOP campaign is active before you open this page.

Replace the marked link with your AIOP affiliate link, or put in the link to your rotator

TIP:

if you create a rotator first right before you make use of this page you don't have to make changes to it anymore. :) <http://eatmyclicks.com/splashpage.php?splashid=6&rid=2> watch the video if you don't

have a rotator service yet, signup use it free!

When you are done with all changes in the above HTML code, go to <https://aiopsplashbuilder.com/splashpage.php> create a new page choose the one EMPTY for advanced users, there you click on HTML and then you paste your HTML code into the window which opens, when done, save all settings, then open your squeeze page and check if it looks correct.

Fill out the form with a TEST email of yours to make sure that the AR works as well!

Update:

sometimes when you copy and paste the code the “-” in form action="<https://www.aiop-response.com/subscribe.php>" gets lost, check if you have the “-” correctly in your code.
